Graphing Turkeys

5 families each bought a turkey for Thanksgiving dinner. Use the graph below to answer the questions. Show your work.

1. How much does the Wilsons' turkey weigh?

5. How many pounds do the turkeys weigh all together?

2. How many more pounds is the Johnsons' turkey than the Smiths' turkey?

6. The Clarks wanted a 9 pound turkey. How many pounds heavier is the turkey they bought than the turkey they wanted?

3. Whose turkey weighs the least? How much does it weigh?

4. What kind of graph is on this page?
